

# GEAR HUGGER HEAVY DUTY DEGREASER

Biodegradable Degreaser.

## DESCRIPTION.

Heavy Duty Degreaser is a water-based Heavy Duty biodegradable degreaser that removes dirt and deep grease. Formulated with a selective blend of high-performance, environmentally friendly bio detergents and solvents. In addition to containing natural extracts rich in saponins that serve as foaming agents and have the property of linking polar opposite molecules, such as water and oil, which favors degreasing at the molecular level. Its slightly alkaline pH positions it as a cleaner-degreaser, ideal for removing grease, oil residues and all kinds of tough dirt. Leaves a shiny, dewy finish. It is safe and effective, non-flammable and biodegradable.

## PROPERTIES AND BENEFITS.

- Same performance as petroleum-based options.
- Good cleaning on heavily soiled surfaces.
- Contains natural extracts rich in saponins.
- Easily biodegradable.
- Eco-friendly.
- Ready to use.
- Natural aroma.

## CHARACTERISTICS.

	ASTM METHOD	TYPICAL VALUES
Appearance	Visual	Slightly Opaque
Color	Visual	Colorless
Specific Gravity at 15.6°C	D 4052	1.0180
PH @ 100%	D 1287	10.40

## APPLICATION.

This premium degreaser is specially formulated to replace petroleum-based degreasers and where there is a need or interest in using a biodegradable product.

How to use

1. Shake it before use.
2. Apply the product by spraying directly on the surface to be degreased and leave it to act for 15 min.
3. Scrub the surface with a brush.
4. Rinse with plenty of water.

## APPROVALS.

- Meets with California Proposition 65.
- Lubricant with 94% biodegradability according to OECD 301 B.
- Product with 96% USDA-certified biobased.

## HEALTH AND SAFETY.
